

Southern California Edison, the California Community Colleges, and HVACRedu Invites HVACR Educators to a Special Training Event:

HVAC Optimization – Commercial Quality Maintenance
ACCA/ASHRAE/ANSI Standard 180
for HVACR Educators

December 17th and 18th
8:00am – 4:30pm
SCE Energy Education Center
Free

HVAC instructors will learn ACCA/ASHRAE/ANSI Standard 180 Quality Maintenance protocols for Roof TOP Units (RTU's) and Economizers. The purpose of this training is provide the support, information, and resources necessary to include Quality Maintenance procedures into the instructional process at your institution, school, or college.

This 2-day course is applicable for 16 NATE CEHs
Certificate of Completion awarded

This training supports California's Long Term Energy Efficiency Plan to transform the market by equipping the broader HVACR workforce with the knowledge, skills, and abilities to provide standards-based Quality Maintenance.

The course is applicable to Title 24 in the State of California, and adheres to the ACCA/ASHRAE Standard 180 Quality Maintenance protocols. It is aligned with the National Standards for HVACR education and the Home Performance industry as formulated by numerous industry groups such as ANSI/ACCA Quality Standards, AHRI, HVAC Excellence, BPI, PAHRA, PHCC, RSES, and others.
